____ Initials

to make our community a better place.

Mayor Hill noted the passing of Carol Ann Bowman; former Librarian and a longtime volunteer at the Edgewood Library and asked for a moment of silence.

Mayor Hill commented that the Legislature has adjourned with no Capital Outlay Funding. He will draft a letter to the Governor, and Senate/House asking them to reconvene to pass legislation.

Councilor Ring inquired about communities having to repay taxes to the Tax & Revenue Department. Mayor Hill explained the situation and how it affected a few communities. He added the bill intended to mitigate circumstances and set a time frame on how far back they Taxation and Revenue can collect for. Attorney Chavez noted that the case is currently before the Supreme Court.

4. MATTERS FROM THE COUNCILORS and/or ANNOUNCEMENTS.

A. Discussion of the "Public Comment Section" of Meeting Agendas – Councilor Simmons.

Councilor Simmons stated that she felt the Mayor had been quite forbearing with the Public Comments. She added that the Council and Staff are here to do Public Business and "we" should be a little more circumspect regarding the "2 Minute Rule."

Mayor Hill stated the "2 Minute rule" is in our protocol, so we need to honor it. He continued saying that sometimes comments or concerns are more complex and may need some extra time. The Speaker is allowed to request additional time to speak or they are also invited to make an appointment to discuss their concern with staff and seek a solution. Mayor Hill stated that he would like all future handouts to be given to the Town Clerk as a safety measure and she will distribute to Councilors and Staff. All written comments subject to the Quasi-Judicial process must be received before the close of business the day prior to the meeting. Legal Counsel will look into whether or not written statements will need to be notarized. Mayor Hill stated that draft procedures will be brought forward in the future.

5. MATTERS FROM THE ATTORNEY.

Attorney Chavez had no comments.

6. PUBLIC COMMENTS OF GENERAL MATTERS. Limit to 2 minutes per person.

(Note: If you plan to testify under Public Hearings, please do not sign up for this topic).

Mr. John Bassett referred to "Protocols", inquiring how a citizen would be able to add an item/concern to the agenda.

Mayor Hill suggested they contact one of the Councilors, who in turn would bring it to staff and Mayor.

Mr. Ralph Hill expressed his appreciation for the work the Councilors do. He stated that he had talked to David Tanner, a local contractor, regarding the Round Pen for the Equestrian Center. Mr. Tanner gave him an estimated cost of \$5400 + tax. Mr. Hill asked if this project goes forward, that the local contractors would be given special

____ Initials

consideration.

Secondly, Mr. Hill spoke about the road side vendors. He does not like that they compete with local businesses, they do not collect sales tax and in some cases, don't have an Edgewood Business License.

Mayor Hill replied, regarding the Round Pen, they are in discussion with Santa Fe County about this. He added that the Santa Fe County Manager will be in Edgewood next week. She is familiar with the Equestrian Center and was a part of its origin. Regarding the contractors, we can reach out to locals for at least three bids.

Ms. Muller responded regarding roadside vendors, saying that she and the local Police Department frequently approach them to check for a Business License.

Mayor Hill added that one of the items in the budget discussions will be a Code Compliance Officer.

7. CALL FOR PUBLIC HEARING. (This request has been withdrawn by the applicant)

A. Zone Change: Markley Enterprises, LLC, requesting (S-U) Special Use or Multi Zoning of R-3 Residential/Institutional and M-U Mixed-Use for 3.6 acres located at 102 Quail Trail Road, Tract 1-A-1 Lands of Markley Enterprises, LLC, within Section 27 T10N R7E NMPM.

Mayor Hill stated that the applicant has withdrawn his request, so this item would not be heard.

8. CALL FOR PUBLIC HEARING.

A. Public Hearing to Adopt Proposed Ordinance No. 2015-03; An Ordinance Governing the Collection, Treatment, and Disposal of Wastewater Within the Town; Providing for Procedures and Policies for Obtaining Wastewater Service from the Town; Providing for the Authority of the Town and Providing for Fees and Penalties. Repealing Ordinance No. 2010-01 An Ordinance Providing for Connection to Wastewater Facilities of the Edgewood Sewer District; and Ordinance No. 2010-02. An Ordinance Governing the Wastewater and Sewage Disposal.

Mayor Hill stated a draft of the proposed Ordinance is included in the packets for review. It will need to go back to the Engineers, so it is a work in progress.

MOTION:

9. PUBLIC HEARING.

Quasi Judicial Procedure: Certification that Public Notice of this Meeting has been posted as required: (Continued from the Council Meeting of March 4, 2015).

This case is being heard under provisions required by the New Mexico Court of Appeals intended to protect the rights of all parties and their witnesses and the swearing in of all parties giving testimony. The affected parties will have the right to cross-examine persons giving testimony.

Confirmation of no conflict of interest or ex-parte communication.

A. Amendment/Corrections to the Town of Edgewood Official Zone Map.

Mayor Hill recused himself and Mayor Pro Tem Ring continued the meeting.

Mayor Pro Tem Ring opened the Public Hearing and requested from legal Counsel the definition of an affected party.

Attorney Chavez replied any party that is adjacent to the subject property or has financial interest in an adjacent property.

Mayor Pro Temp Ring inquired about the Certification of the Public Notice.

Estefanie Muller certified that the Public Notice had been posted as required.

Councilor Abrams confirmed no conflict of interest or ex-parte communication.

Councilor Simmons confirmed no conflict of interest or ex-parte communication.

Councilor Abraham confirmed no conflict of interest or ex-parte communication.

Mayor Pro Tem Ring confirmed no conflict of interest or ex-parte communication.

Steve Shepherd stated that 4 items from the last meeting on the Zoning map were not passed: Lone Pine property, Donald Reece property, Hill property and Valley View Christian Church property. These zoning changes were not previously heard at Council, so the zoning process is incomplete.

Councilor Abrams asked if this would be the hearing for the properties.

Mayor Hill replied, explaining that though he recused himself, he will be allowed to speak as staff on the subject. In answer to Councilor Abrams question, he stated that yes, this would be the hearing for each of the properties mentioned.

Councilor Abrams asked if the surrounding property owners were notified.

Tracy Sweat confirmed that she had notified the surrounding property owners of this meeting.

Councilor Abraham asked for clarification on Item #2; the Reece Property.

Ms. Sweat replied that the correct zoning for this property would be C1, which is the smaller of the commercial classifications.

Mr. Bassett inquired about the Lone Pine property. He stated that this should be a zoning change.

Mayor Pro Tem Ring asked Mr. Bassett how this would affect his property.

Mr. Bassett replied there would be more traffic and more trash blowing around.

Attorney Chavez stated that Lone Pine has been operating under this zoning designation and this is still appropriate for them. MU is more permissive.

Mayor Hill explained that going back and doing a zoning change would put a huge burden on the property owners even though the designation has limitations based on a time frame.

Attorney Chavez reminded Council and guests that this is an amendment to the zoning map because the applications were never brought forward.

Mr. Bassett stated he opposed the change here. He felt it should be a full blown zone change. The new MU has differences in use and could have a different impact. People would view it differently now.

Attorney Chavez stated it would be acceptable to advertise this as a zone change, if the Council decided to go that route.

Ms. Cindy Berg, #6 Isham Road, Edgewood, stated she is an adjacent property owner to Item 10, the Hill property, and she did not receive a notification.

Tracy Sweat replied that she used the owner of record from Santa Fe County, it is possible that corrections to that record have not been made recently. She welcomed Ms. Berg to come into the office and view the information.

Mayor Pro Tem Ring stated he would invite a motion to approve a Zone Map Correction for items 8, 9, 10, & 11.

MOTION: Councilor Simmons made a motion to accept Items 8, 9, 10 and 11 as Zone Map corrections. Councilor Abraham seconded the motion.

VOTE: Councilor Abrams abstained, Councilor Simmons voted aye. Councilor Abraham voted aye. Mayor Pro Tem Ring voted aye. The motion carried.

Mayor Hill resumed the meeting and commended Mayor Pro Tem Ring for the manner in which he conducted the Public Hearing.

Chief Radosevich stated that shortly after they had received a new truck for Animal Control, he was approached by the Santa Fe County Fire department with interest in the expedition. Chief Radosevich asked if the Council would allow him to donate the 2006 Ford Expedition to the Edgewood District for Incident Command.

MOTION: Councilor Ring made a motion to approve the donation of the 2006 Ford Expedition to the Santa Fe County Fire Department – Edgewood District. Councilor Abrams seconded the motion.

5.a Hillcrest, LLC creating 2 lots from 39.28 acres Zoned M-P located at 11 East Venus Rd., Tract B, Unit 6 Block 1, within the N ½ of Section 15, T10N R7E NMPM

Chairman Gabel reviewed the application for the Commission and asked that all parties to give testimony be sworn in.

At this time Mr. Steve Shepherd, Ms. Tracy Sweat, Mr. John Bassett, and Ms. Janelle Turner were sworn in.

Chairman Gabel invited the applicant to present his application.

Mr. Tim Oden declined.

Chairman Gabel asked about Venus Road and whether it would continue to serve as the main access for the resulting lots per the Master Plan.

Mr. Oden responded it would.

Chairman Gabel stated that was the only question he had and asked the Commissioners, Staff and Public if they had any questions; hearing none he called for the Staff Report.

Mr. Shepherd read the staff report for the Commission indicating a recommendation to approve the Minor Subdivision.

Chairman Gabel asked if consistency with the Master Plan was considered as part of the review process regarding the applicability of this subdivision.

Ms. Sweat responded stating this Master Plan is unique in that there is a Court Order which stipulates the Master Plan as approved in August of 2003 is the binding document and not the 1999 or 2003 Ordinances. She added this subdivision application was found to be consistent with the approved Master Plan.

Chairman Gabel asked if the Master Plan should not have been identified as a supporting document in the Staff Report with a statement that the application and resulting subdivision is consistent with the terms or conditions as outlined by the Master Plan.

Ms. Sweat agreed that information can be included in future staff reports. She continued stating there had not been enough time to make the addition for this application as she had just met with the attorney late this afternoon confirming the process and applicability as a Minor Subdivision.

Commissioner Navarre asked if this application was part "A" of several parts to be integrating as a subdivision into a Master Plan.

Mr. White responded there is an approved Master Plan that includes a general implementation schedule. Both the Master Plan and the Zoning Ordinance relating to Master Plans state that implementation of a Master Plan is done by taking an action under the Subdivision Ordinance. The Master Plan will govern how each subdivision application as it comes forward but the Master Plan is not done as a whole, rather in stages over time.

Commissioner Navarre asked if each subsequent subdivision will come before them for evaluation.

Mr. White confirmed they would and each application that comes forward will be evaluated for consistency with the Master plan.

Commissioner Navarre asked for clarification that this application is to be looked at as a Minor Subdivision and not for considering what may be applied to the two lots.

Mr. White agreed adding the zoning for this part of the Master Plan is currently commercial and at this point they are simply looking to see if it meets the provisions of a Minor Subdivision.

Chairman Gabel asked if there were any other questions from the Commission; hearing none he called for questions from the public.

Ms. Janelle Turner stated she lived at 30 Madole Road in the Square H Subdivision which is across Highway 344 from the Subdivision. She stated she had been a part of the Master Plan development from its first inception in 2000 through the various stages and as a member of the Commission. She asked if upon adopting the new Subdivision Ordinance it meant the plat will resemble the form of a Major Subdivision but not the requirements.

Mr. White agreed stating the exceptions were the items required under the Minor Subdivision.

Ms. Turner asked if he was referring to the three criteria and if so at what point will such issues as grading & drainage, water and wastewater be addressed. She added, in previous versions of the Subdivision Ordinance minor subdivisions were subject to substantive review where this one is not. At what point are issues of substance addressed for subdivisions.

Mr. Shepherd responded that would be when an application is submitted.

Ms. Turner added in the past when a subdivision was granted the applicant had to answer to those questions and now they have been pushed forward. She asked if there had been a consideration for increased traffic.

Mr. Shepherd responded he had not.

Ms. Turner provided the Commission with photos of the intersection at State Road 344 and E. Venus indicating there is a lot of traffic generated from First Choice Medical Clinic, Edgewood Middle school and all of the residences in the area. The pictures show the culverts at the intersection of West Venus and 344 as well as at Ravens Roost further south which are partially blocked with weeds and debris and asked about routine maintenance. She also discussed the photos of the intersection at East Venus and 344 pointing out that there were not currently any culverts in place which she understood to be requirements of both the Town and NMDOT for intersections such as these. The pictures show dirt and gravel that have washed out onto the roadway. She added that her concern with processing this application as a Minor Subdivision is that there is not a means to assess roads within the process. She indicated she was not opposed to this subdivision but her concern is with the Towns role in reviewing subdivisions under the Minor Subdivision process.

Commissioner Navarre asked if the drainage was the Towns responsibility or the State.

Mr. Shepherd responded 344 was the States' responsibility and it should have been engineered when the road was built.

Commissioner McGill added the State approved it and it was constructed per the States approval.

Commissioner Navarre asked if this minor Subdivision is approved and generates additional traffic would the Town then address it.

Mr. Shepherd stated there would be a point in which NMDOT would require a traffic study.

Mr. John Bassett asked about Exhibit E, as included in the application packet and if it was the most current plat for this property. He added it was on the Commission when this subdivision was voted on and it included a sunset clause.

Ms. Sweat responded it was provided as supplemental material to the application but did not know if it was the most current plat.

Mr. Bassett stated within the Minor Subdivision procedure there is a stipulation that upon approval an entire year must pass, in the case of Hillcrest, would that apply to the Master Plan as a whole or only to Unit 6.

Ms. Sweat responded it would only apply to Unit 6.

Mr. Bassett referred to the deed for Unit 6-A and asked if it was from Hillcrest to the Town.

Mr. Shepherd indicated it was and had been filed with the County on September 15, 2009.

Mr. Bassett stated it had met the 6 months but asked if it was still the Town's property.

Mr. Shepherd responded that it had been deeded back to Bro & Tracy Animal Welfare, Inc. on September 26, 2014.

Mr. Bassett asked if it would be possible to get a copy of the deeds.

Mr. Shepherd responded he could and offered to email them.

Mr. Bassett indicated he would send in a request.

Chairman Gabel asked if the property they were refereeing to was part of these two parcels for tonight's application or the overall Unit 6.

Ms. Sweat responded the deed they were discussing was for Unit 6-A at the very southern end of that Unit and not a part of this application.

Commissioner Navarre asked for clarification regarding future subdivision on the Unit versus development and whether any action would be held off for a year.

Ms. Sweat responded they would be prevented from making additional subdivisions but not development for a year.

Chairman Gabel corrected that they would be prevented from making another Minor Subdivision but could apply for a subdivision under the Major Subdivision process.

Ms. Linda Finklestein of First Choice Medical stated she did not have any opposition to the Subdivision but was concerned with drainage at the intersection. She stated they had experienced an 18 inch high flash flood in the area that breached the berm. She added there is not currently a bar ditch and asked the Commission to consider the future placement of culverts and appropriate drainage around the intersection.

Mr. Tim Oden, Manager of Hillcrest LLC, stated he had submitted a grading & drainage plan of Unit 6-A for the Towns review. Part of this grading & draining plan follows with the master grading & drainage plan that was approved by the Towns Engineers in 2008. Part of this recently submitted G & D indicated excavation of the gravel pit to the North of Unit 6-A to create an 18 acre foot pond for all of the drainage from the South side of Venus Road as well as the swale on the North side of Unit 2. All wet drainage will flow into the retention pond that is being proposed in the gravel pit area. None of the improvements or development on any of the properties on the South side of Venus Road will drain to the West and out to 344. He added they are not making any changes to it now for the better or worse. All the draining from the Master Plan from that side of Venus will drain south through the project and be retained on site.

Chairman Gabel called for comments; hearing none he closed the Public Hearing.

Commissioner Markley stated this had been well vetted for the better part of a decade. He didn't see anything that stands out as inappropriate or questionable and had no further comment.

Commissioner Navarre stated he hoped that somewhere in the future the State will address the drainage issues at Venus and 344.

Mr. Shepherd indicated he had met with the Department of Transportation recently to discuss adding improvements for 344 to their State Transportation Infrastructure Plan. He added they were looking for something in the next three to five years and it would likely include widening additional portions of 344 to 4 lanes.

Chairman Gabel stated Grading & Drainage does appear as a condition of approval and future development in the Staff Report and feels it should continue to be included. He added he would like to see language included in the Findings to state that the resulting lots will remain subject to the conditions of the Master Plan.

Chairman Gabel discussed the template motions and requested the addition of the language regarding adherence to the Master Plan.

Commissioner Navarre made a motion to approve the Minor Subdivision application, as requested by Hillcrest, LLC Mr. Tim Oden Managing Member, creating 2 lots from 39.28 acres located at 11 East Venus Rd. Tract B, Unit 6, Block 1 of the Hillcrest Master Plan within the North ½ of Section 15, T10N, R7E NMPM, Edgewood, New Mexico; his motion was seconded by Commissioner Markley.

Chairman Gabel stated as part of the Findings of Fact language could be added to indicate the parcels that are subdivided will continue to be subject to the conditions of the Master Plan.

Commissioner Navarre stated he agreed but asked if that was not assumed within the Ordinances.

Mr. White agreed and stated they could vote on their motion as presented then state in their Findings of Fact that all subdivisions within the Master Plan are subject to the Master Plan and then recognize the items listed in the Staff Report.

Chairman Gabel stated in the past the content of the Findings of Fact were included in the motion.

Mr. White responded they could do it that way but he had typically seen the approval and the Findings handled as separate motions. He suggested they follow the practices they utilized before and could add the language into their motion regarding the subdivision within the Master Plan.

Chairman Gabel stated he was comfortable with that approach and called for a vote on the motion.

Action: Chairman Gabel voted aye. Commissioner Navarre voted aye. Commissioner Markley voted aye. Commissioner Thompson voted aye. The motion carried.

Chairman Gabel asked Ms. Sweat to summarize the discussion regarding the Findings and the items to be included.

Ms. Sweat stated the Commission would like to incorporate the five items listed in the Staff Report as well as the language that any resulting parcels will be subject to the conditions found in the Master Plan.

Chairman Gabel added it should specifically reference the title and date of the Master Plan as Hillcrest Master Plan, August 10, 2003.

Commissioner Navaree made a motion that any resulting parcel found in the Hillcrest Master Plan of August 10, 2003 meet the requirements of the provision following the Town of Edgewood Ordinance Grading & Draining of 2010-01, Subdivision Ordinance 2014-03, Zoning Ordinance 2014-02 Fire & Rescue Impact Fees 2004-09, and the Uniform Fire Code; his motion was seconded by Commissioner Markley.

Chairman Gabel indicated concern over the motion as it sounded as though it was modifying the Master Plan.

Mr. White offered the language that the approved subdivision continues to be subject to the provisions of the Hillcrest Master Plan of August 10, 2003 as finding one. Finding two would be the Ordinances listed. He added they could be listed as one finding.

Action: Chairman Gabel voted aye. Commissioner Navarre voted aye. Commissioner Markley voted aye. Commissioner Thompson voted aye. The motion carried.

Chairman Gabel stated the subdivision will not be valid until it is recorded in the Santa Fe County Clerk's Office.

- 6) Public Comment. Limit to 2 minutes per person. Note: If you plan to speak under Public Hearings, please do not sign up for a specific topic.

Ms. Janelle Turner provided a brief history of the Hillcrest Master Plan. The Hillcrest Master Plan was approved in 2003 during a Council meeting without a Traffic Impact Analysis which the law required. The Town Attorney was not present at the meeting and when it came to his attention he advised the Council to rescind their approval which they did. The land owners filed a lawsuit which resulted in a Settlement Agreement and Settlement Order. The Settlement Agreement was not put in writing, the only documents available for reference are the Stipulated Court Order and the Master Plan. At the time the public was told that Traffic Impact Analyses' would be handled as parcels were brought forward in pieces with reference to the entire plan. She encouraged Mr. Shepherd to follow through with NMDOT because those roads will funnel onto 344. She asked about the maintenance for the culverts.

Mr. Shepherd stated he would look into it.

Ms. Turner discussed the discrepancy between the previous and the recently approved Zoning Ordinances related to densities under the R-3 designations as well as the permissive uses under the M-U designation. She pointed out that Medical Offices are listed as both permissive and requiring a Conditional Use Permit which presents a conflict. Anytime language is inserted into a provision of the Ordinance it's important to consider the rest of the section looking for conflicts as well as any other provisions that are referenced in that section. This can be a tedious and boring process but it's better to do it up front then to be embarrassed at a Public Hearing when an applicant or individual points it out. She suggested the Commissioners could keep track of these types of issues as they find them so they may be brought forward the next time the Ordinances are amended.

Mr. John Bassett encouraged the Commission to take advantage of all the training opportunities they can. He added this was the second time an applicant was not sworn in yet provided testimony. He continued stating a witness spoke but was not sworn in and a Commissioner that recused herself did not leave and then proceeded to participate in the discussions. He suggested the Commission work on their procedures, have witnesses and applicants sworn in properly and, in the event a Commissioner recuses themselves from the hearing, they should step outside. Practicing and drilling of stuff like this creates good habits because not all applications coming forward will be this easy.

- 7) Matters from the Chair and Commission Members.
Election of Officers.

Chairman Gabel reviewed the process for electing officers stating nominations can be made for each office followed by a vote. He stated he would propose Commissioner Navarre for the Chairman position, Commissioner McGill for Vice-Chair and was willing to serve in the position of Secretary himself.

Commissioner Markley agreed.

Commissioner McGill indicated she was not in agreement and felt the Commissioners should make the nominations not just the Chair. She added she had no prior knowledge she was going to be nominated for Vice-Chair.

Chairman Gabel stated he was just throwing out suggestions and had made an effort to contact Commissioner McGill adding he was open to alternate ideas so they may leave the meeting tonight with a new slate of officers.

Commissioner McGill asked for clarification that Chairman Gabel no longer wanted to serve as Chair.

Chairman Gabel agreed adding he did not wish to remain as Chair but was willing to serve in one of the other offices.

Commissioner Markley stated he agreed with the slate the Chairman had suggested as the three of them were the most knowledgeable candidates for the positions and was in full support of it.

Commissioner Thompson agreed.

Commissioner McGill indicated she would be willing to serve in the Chairman or Secretary position but not the Vice-Chair.

Chairman Gabel stated that despite Commissioner McGill's experience he felt it would be more appropriate to put some space between her working for the Town as staff and serving in the Chairman position not only for the appearance but also the integrity of the Commission. He added these positions were only for the next nine months because of the delay of this election from its normal schedule in January.

Commissioner McGill asked the Chairman to identify his reasons for feeling it was inappropriate for her to serve in the Chairman position.

Chairman Gabel responded that it was his understanding that she was still serving as a consultant to the Town.

Commissioner McGill stated she provided her resignation the day she was nominated for the Commission. She continued stating she does still answer general questions for the Town but they are strictly regarding the past and not current or future concerns.

Commissioner Navarre nominated Commissioner McGill for the position of Chairman; his nomination was seconded by Commissioner Markley.

Chairman Gabel asked if there was any discussion; hearing none he called for a vote.

Action: Chairman Gabel voted nay. Commissioner Navarre voted aye. Commissioner Markley voted aye. Commissioner Thompson voted aye.

Mr. White indicated that Commissioner McGill should vote also.

Commissioner McGill voted aye. The motion carried.

Commissioner Markley nominated Chairman Gabel for the position of Vice-Chair; his motion was seconded by Commissioner Navarre.

Action: Commissioner Thompson voted nay. Commissioner Markley voted aye. Commissioner McGill voted aye. Commissioner Navarre voted aye. Chairman Gabel voted aye. The motion carried.

Commissioner McGill nominated Commissioner Navarre to the position of Secretary; her nomination was seconded by Commissioner Markley.

Action: Chairman Gabel voted aye. Commissioner Navarre voted nay. Commissioner McGill voted aye. Commissioner Thompson voted aye. Commissioner Markley voted aye. The motion carried.

Chairman Gabel asked if there were any other matters from Commissioners.

Commissioner Navarre asked if the Commission could plan time to talk about Commission goals and expectations for the Town moving forward and their role not only in management of applications but also in planning.

Chairman Gabel asked if the vote to elect the Officer position should have been effective immediately or at the end of the meeting.

Mr. White responded he believed there is a protocol stipulated in Robert's Rules of Order for the Chairman to take over at the time of vote but they were almost to the end of the meeting.

Commissioner McGill requested Chairman Gabel complete the meeting as Chair.

Chairman Gabel asked if there were any other matters from the Commission.

Commissioner McGill stated she was in agreement with Commissioner Navarre's suggestion for a discussion regarding the intent of the Commission, the Town, and an understanding of who they are serving.

Chairman Gabel agreed and that some of that could come from future training as well.

8) Matters from Staff.

Ms. Sweat asked the Commission how they felt the motion template had worked this evening and if they would like to continue the practice moving forward.

The Commission agreed.

Chairman Gabel stated he appreciated the way the motions had evolved this evening to incorporate a second motion for the Findings. He added Minor Subdivisions are pretty simple but it can become onerous with more complicated matters.

Ms. Sweat suggested the Commission look at the motion templates and when they engage in work session discussions for procedures they may revisit the motions. She added she would also like to discuss the Commissions expectations of Staff as well as the posting requirement schedule for various applications.

Commissioner Navarre suggested listing unfinished or new business on the Agendas.

Chairman Gabel asked about scheduling a presentation from the Town Engineers regarding Performance Based Setbacks.

Mr. Shepherd responded they were working to have something scheduled for a May meeting.

9) Calendar Update.

Chairman Gabel stated the next meeting is scheduled for April 7, 2015 with the second meeting the following week on April 14, 2015 because there were two members unavailable on April 21, 2015. He asked if this would still work for everyone.

The Commission agreed.

Commissioner Navarre reminded everyone he would not be able to attend the first meeting in May but would be available to attend the upcoming training.

Chairman Gabel stated he would not be available for the next meeting of April 7, 2015.

10) Adjourn.

Commissioner Navarre made a motion to adjourn; his motion was seconded by Commissioner Markley.

Action: Chairman Gabel voted aye. Commissioner Navarre voted aye. Commissioner McGill voted aye. Commissioner Markley voted aye. Commissioner Thompson voted aye. The motion carried.

Chairman Gabel adjourned the meeting at 7:16 P.M.

was TAZ, the New Mexico State Library's newest 3-D printer.

A misconception about 3-D printing is that it's like a photocopy. Some things can be scanned or designed but these are not three-dimensional photocopies.

For example, a person can't copy a 3-D print of their hand. It would take some 60 photographs or more to get a composite of the hand and then programing the composite into a computer in order to be able to make a 3-D copy.

This is the same process that is used when a sculpture is 3-D printed. In other words, 3-D printers are copy machines but cannot make copies.

Milbradt continued with a discussion of the things that have been made using 3-D

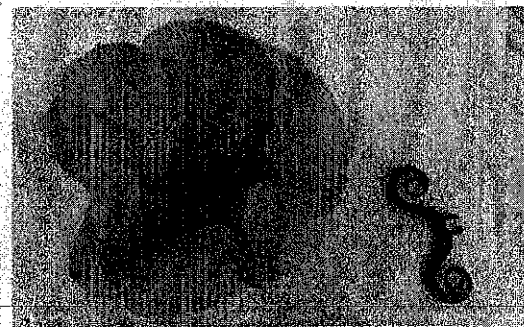

printers by looking at the crown of children, what they think could not be made using a 3-D printer.

Some asked if soccer balls or footballs could be made and the answer was, nearly. The sports balls would not have the right weight or texture and they would most likely be made out of the wrong material. It would not have the right air capacity either.

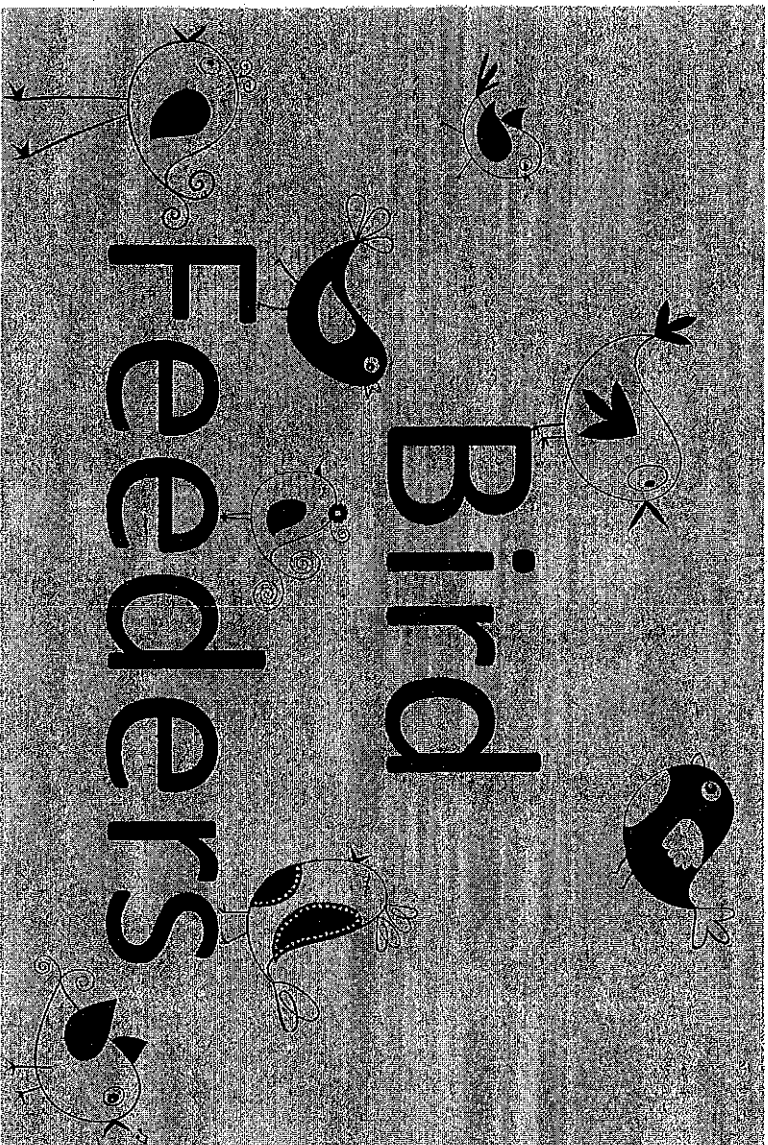

Other examples were given of what things have been made using 3-D printers, such as small houses and apartment blocks in China being made out of concrete being put through the printers.

Also, prosthetic limbs have been made in the U.S. as well as a human heart that was 3-D printed by San Diego-based company Organovo.

The liver is still in the testing stages.

MINUTES DRAFT
Animal Welfare Advisory Committee

March 3, 2015 @ 3:30
Town Office
TOWN OF EDGEWOOD

Attending: Debbie Stack, Chief Radosevich, Susan Simons, Diana Honest, Celia Cook

CALL TO ORDER: 3:33 PM

APPROVAL OF AGENDA: Moved by Diana Honest, Second Debbie Stack, approved unanimously.

APPROVAL OF MINUTES OF February 3, 2015: Moved by Debbie Stack, second by Diana Honest, approved unanimously.

CONTINUED REVIEW OF ANIMAL CARE AND CONTROL ORDINANCE: The Chief reported that he had nothing new on the definitions. Susan mentioned that she found some definitions of 'cruelty' on various county ordinances. She questioned the animal traps usage within the city limits. The Chief said he would check to see if it were permissible.

Susan asked when we could move from definitions to the next section of the ordinances.

CONSTRUCTION OF NEW SHELTER: The Chief reported that progress is good and that he could see it being finished ahead of schedule. He said if the slab has not been poured, it will probably be done next week. He said the electric and plumbing has been roughed out and he would like to have conduit laid below ground between the two buildings to accommodate telephone wiring.

Susan mentioned that we need to make a list of things for the shelter not covered by the bond money. We need to meet with Mike Ring to help us figure out what is needed. Celia mentioned it would be nice to see a floor plan to see where items might go.

NEW MEMBER: The Chief said he didn't see Celia Cook's name on the city council's agenda for being accepted as a new member of the Animal Advisory Committee.

Celia brought a wonderful idea to the table, she is trying to get a spay/neuter van to come to this area a couple times a week. The fee for the van, spay/neuter, and shots would be \$17.50. It would be nice to have the van work in conjunction with Woofstock. She would like it to begin in June, 2015.

DAVID SCHULTZ, LEGACY GIFT: Susan mentioned that it is Mr. Schultz's desire to have his property at 62 Homstead, be sold at his death and the proceeds given to the animal shelter, providing he doesn't need it to live on beforehand.

FUTURE AGENDA ITEMS: Woofstock, September 12, 2015 is the date set for the event. Celia mentioned that it would be nice to have literature at the new shelter in both English and Spanish. Also a program where victims of domestic violence can have a safe place to house their pets should they have to leave. The Chief said that the pets are fostered out to good homes.

ADJOURN: 4:16 P.M.: Moved by Susan Simons, second by Debbie Stack, approved unanimously.

NEXT MEETING, TUESDAY, APRIL 7, 2015 AT 3:30 P.M. AT THE TOWN HALL.
